

**Murphy Class of 1960
Seventy-Fifth Birthday Celebration
April 1, 2017**

**We all are very happy 'cause
this year we're seventy-five,
The reason we're so happy is
we're here and still alive!**

**Age is just a number;
but we all know it's true,
Seventy-five don't seem so old
when it applies to you.**

**Some may think we're old as dirt,
but that cannot be thus,
'Cause Genesis would tell a tale
of Adam and Eve and us!**

**The problem that we have when we
are 'older than the hills',
We have to mind the doctors and
may need some little pills.**

**We have a second childhood chance;
let's all make fun decisions,
Because this time we are without
parental supervision.**

**Our kids and grands have given up;
they know they don't outrank us,
We can do whatever we please
'cause no one dares to spank us!**

**And if our body parts wear out
there's no need to despair,
'Cause we can get new hips or knees
all paid by Medicare.**

**Heart attacks can happen, true,
but we are not afraid,
As long as it occurs to us
while we are getting laid.**

**So cheer up and be jolly and
let's toast another round,
Because the other choice we have
is six feet underground.**

**Let's stay away from hospitals
and mortuaries, too,
So next year we can celebrate
another rendezvous!**
